# Microsoft

Excel

**Tablice**

**u**

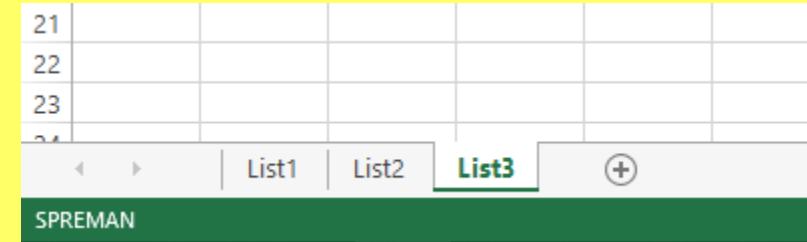

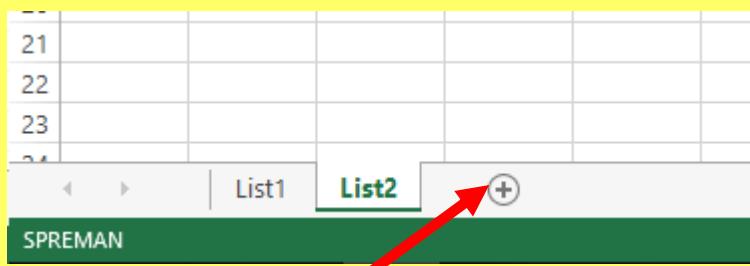

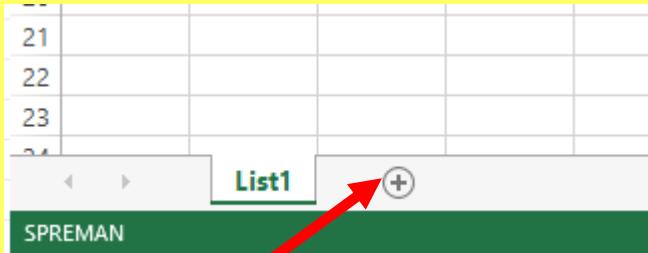

**radnoj knjizji**

**Svaka nova radna knjiga ima jednu  
tablicu List1:**

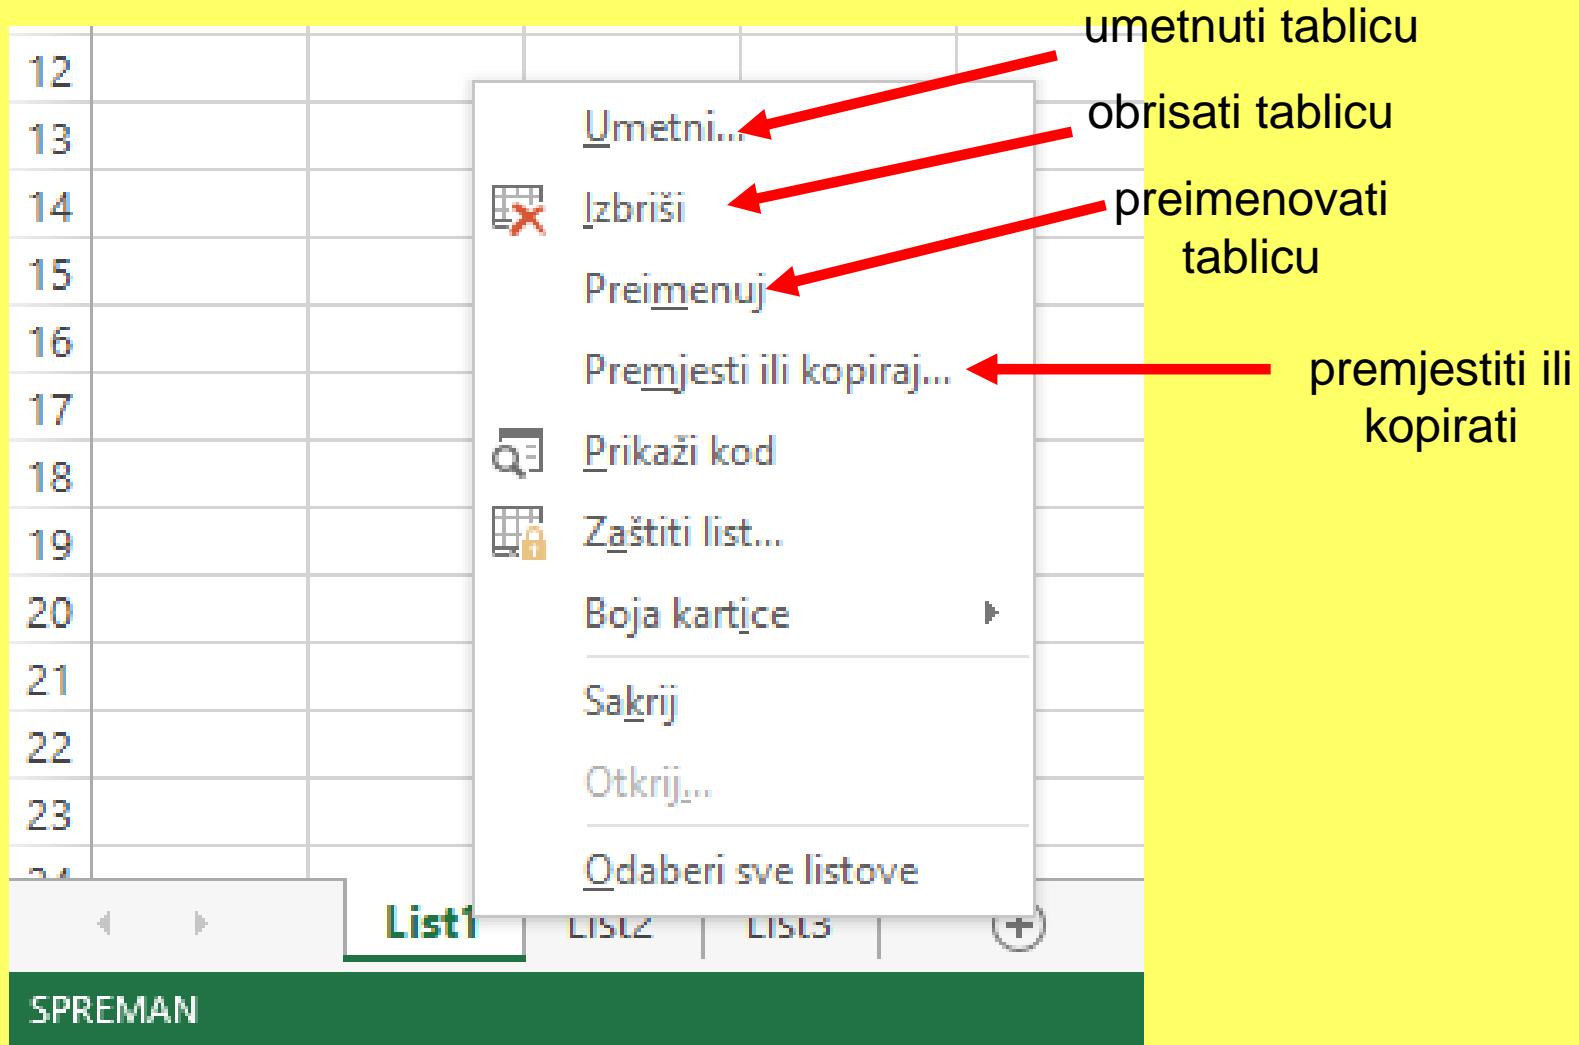

A screenshot of a Microsoft Excel spreadsheet. On the left, there is a vertical column of numbers: 21, 22, 23, and a partially visible number starting with 24. Below this column is a horizontal toolbar with arrows and a plus sign. In the center, there is a table with the header 'List1'. The table has four rows and four columns. At the bottom of the screen, there is a green ribbon bar with the word 'SPREMAN' written on it. A red arrow points from the text 'List1' in the table towards the green ribbon bar.

**Razlikujemo  
ČIŠĆENJE i BRISANJE!**

# Čišćenje (traka Polazno)

Naredbom **Očisti**  čistimo ćelije i tako možemo odabratи:

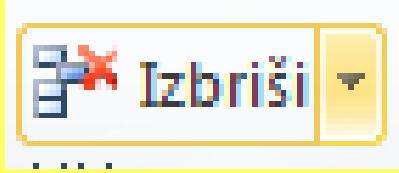

1. čišćenje oblikovanja i sadržaja
2. čišćenje oblikovanja
3. čišćenje sadržaja

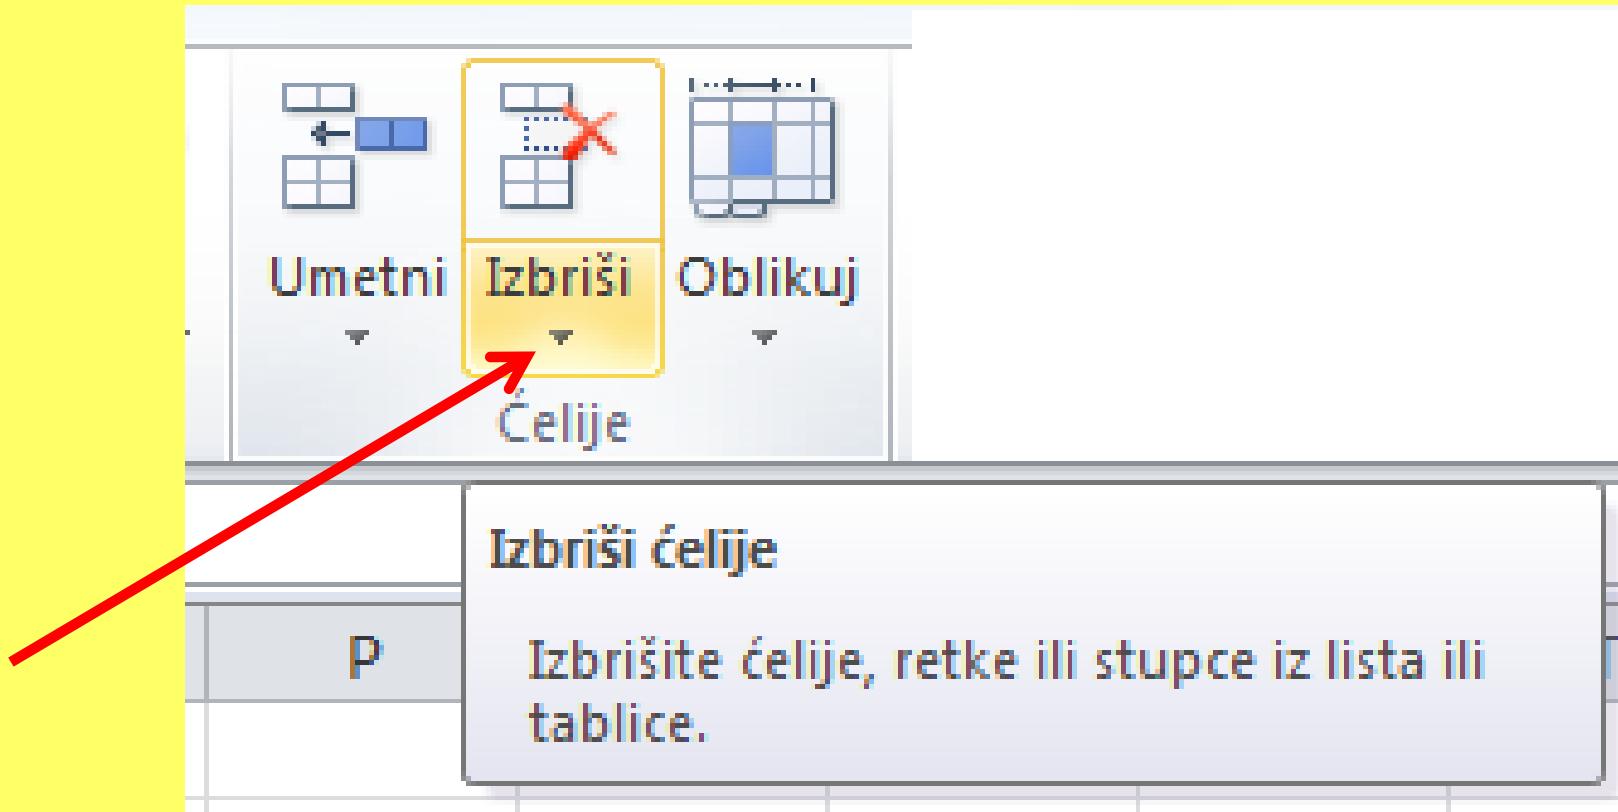

Ako označimo ćelije i **očistimo ih** tipkom **Backspace** ili **Delete**, tada se uklanja **samo sadržaj**, a **oblikovanja ostaju!**

**Nakon čišćenja, te ćelije postoje i dalje.**

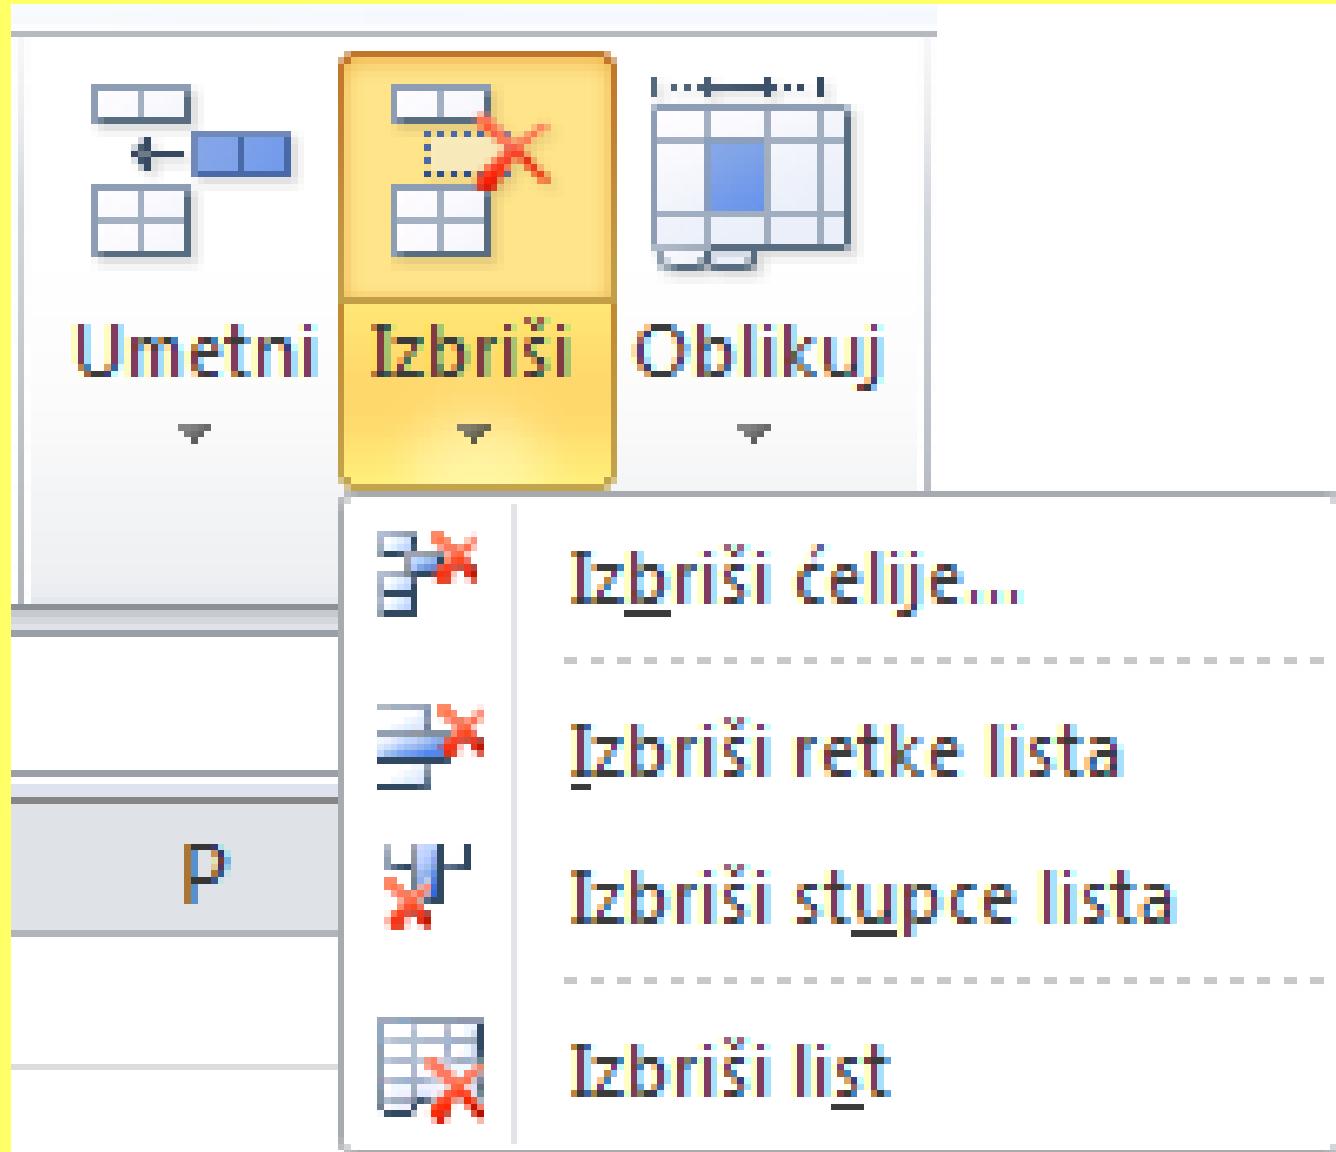

# Brisanje (traka Polazno)

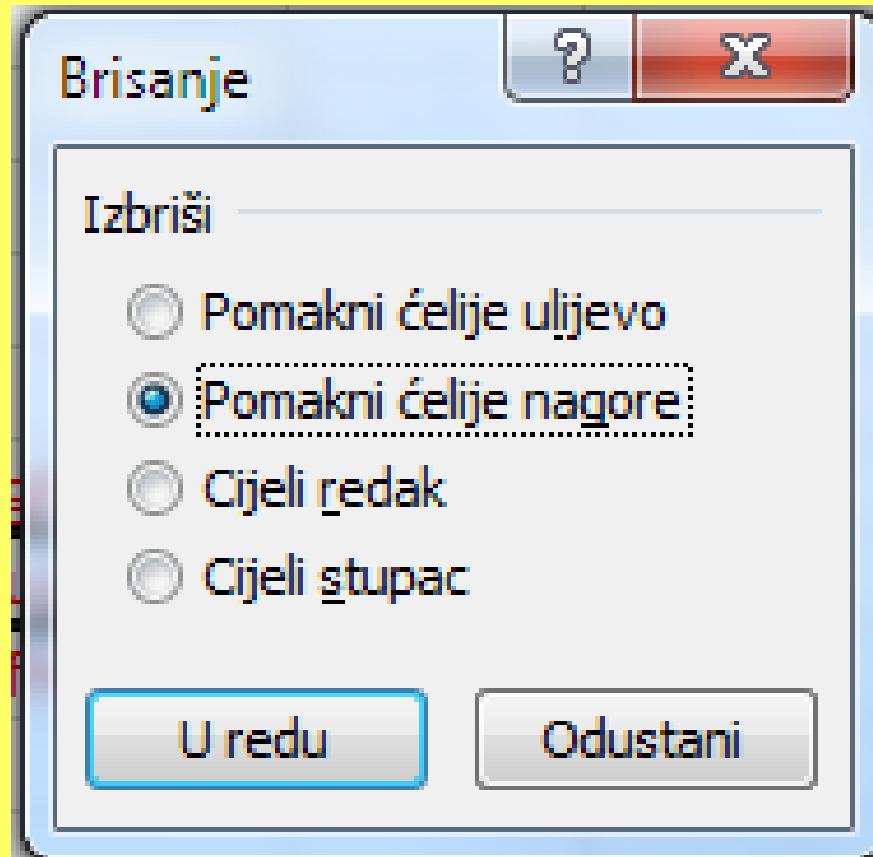

Nakon brisanja obrisane ćelije nestaju!!!

Naredbom BRISANJE možemo obrisati ćelije, retke ili stupce.

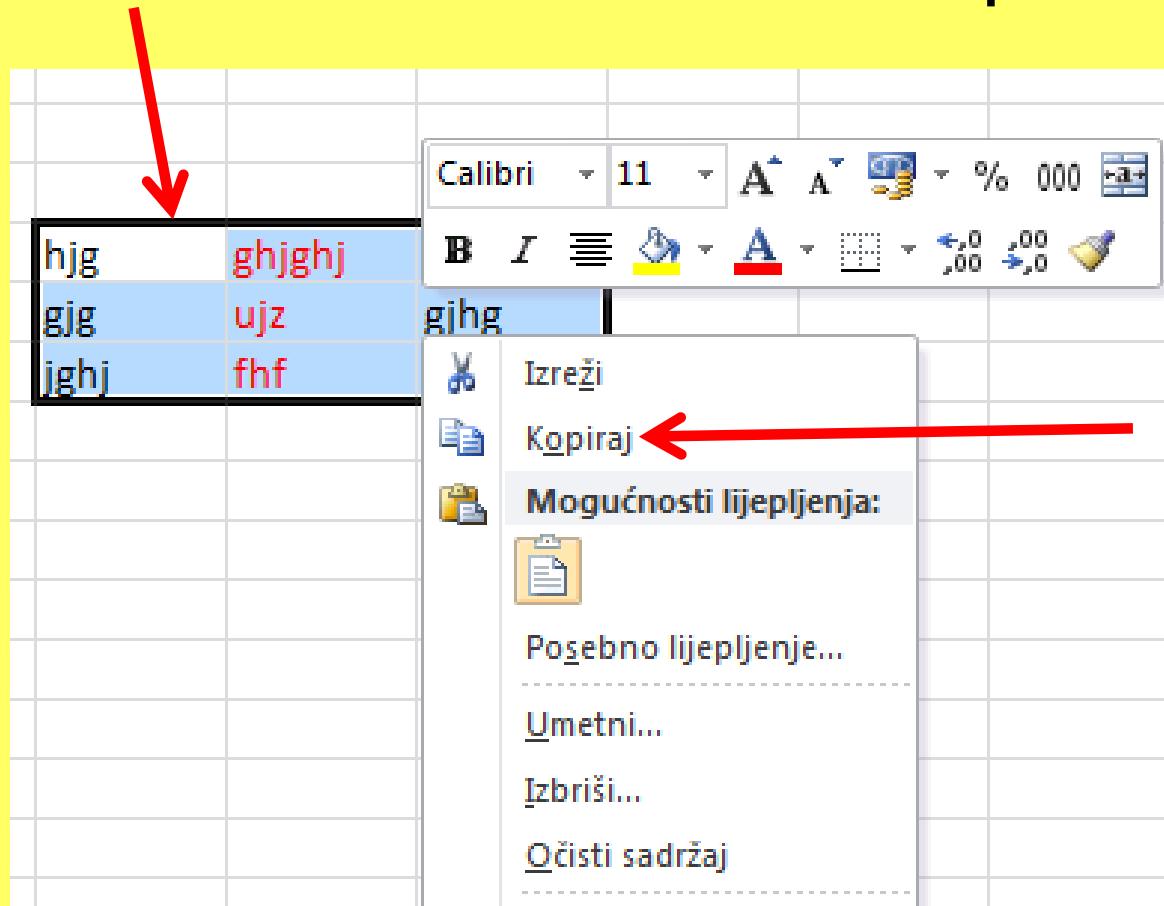

Nakon naredbe za brisanje,  
dobivamo prikazan prozor:

Tu odabiremo što će biti sa ćelijama oko obrisane.

# Kopiranje

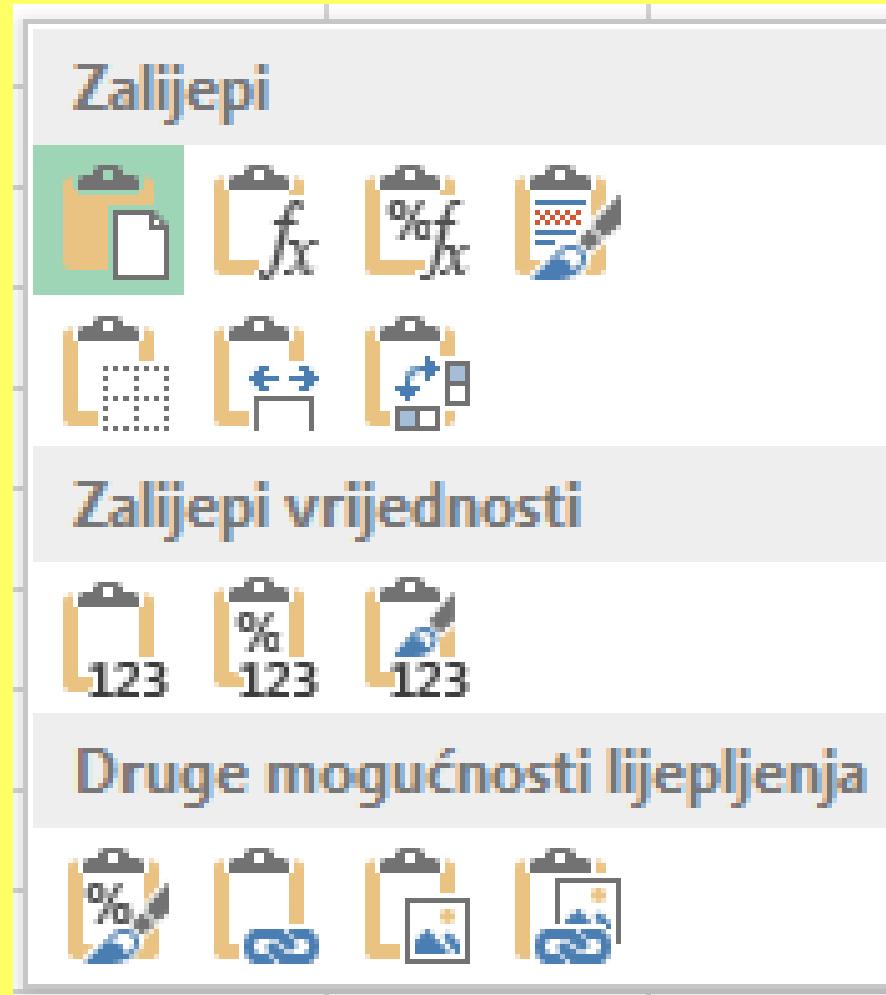

1. Naredbu za kopiranje dajemo nakon što označimo ono što želimo kopirati:

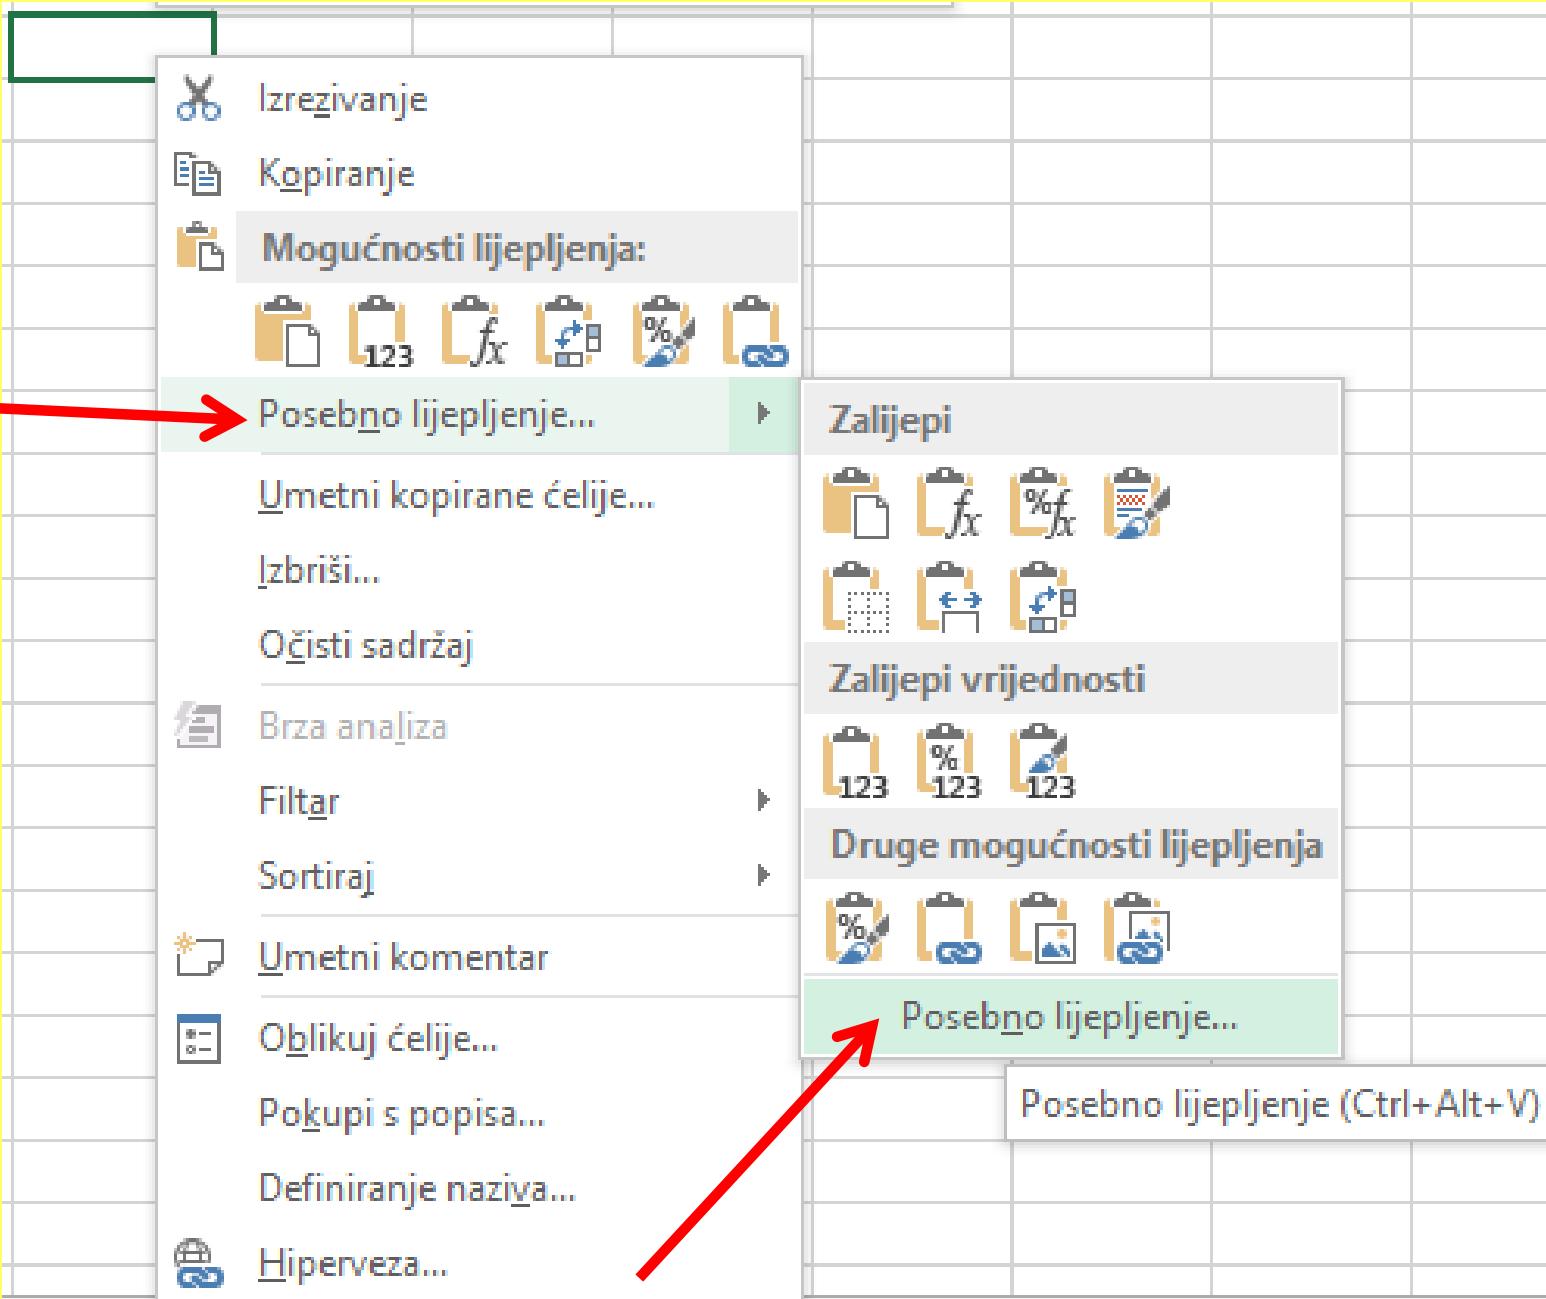

# **KOPIRANJE**

Nakon označavanja i davanja naredbe za kopiranje,  
kombinacijom tipaka **Ctrl+V** zalijepimo  
**i sadržaj i oblikovanja.**

2. Dođemo na mjesto kamo želimo kopirati i odabiremo naredbu:
